

Package Manager

MATRIX42 Package Manager

Matrix42 Package Manager is an automated tool for accessing a Cloud-based repository of 1,400 pre-configured software packages for Matrix42 Client Management and Microsoft SCCM. A dedicated Matrix42 team creates each package according to a comprehensive quality control process, and all administrators have to do is download the packages directly into their environment.

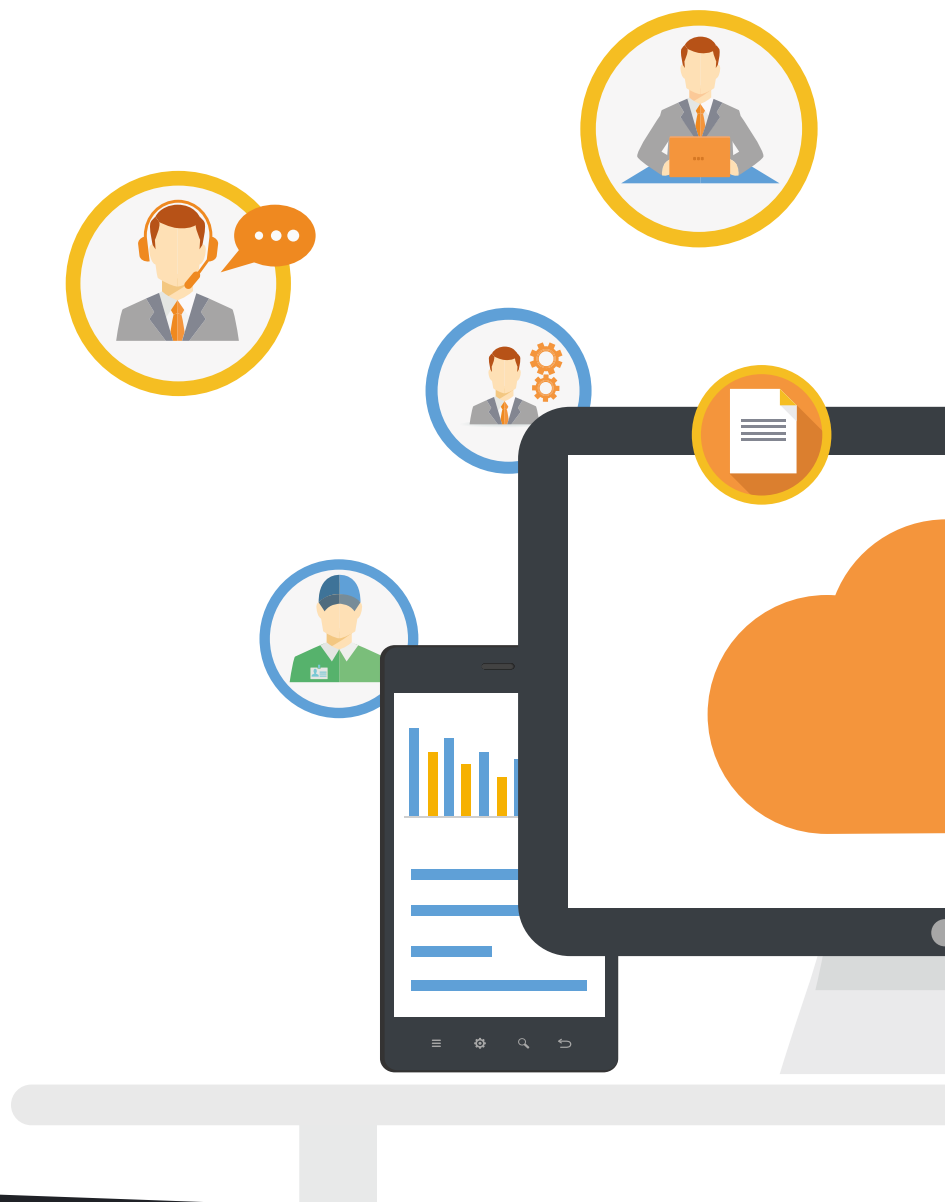

Key functions

1 Intuitive, modern interface

- Access to complete software packages in just three clicks
- Package Manager is updated automatically over the Internet
- Distribution of new functions across short release cycles, manual update procedures are completely eliminated
- Authentication in the Cloud by Facebook, LinkedIn, Google ID or Matrix42 account

2 Cost-saving

- Access to more than 1,400 packages
- Coverage of the majority of your package requirements with Matrix42 Marketplace
- Reduction of 60%-80% of implementation costs for CLM Projects
- Reduction of 60%-80% of packaging costs for the maintenance of a CLM environment

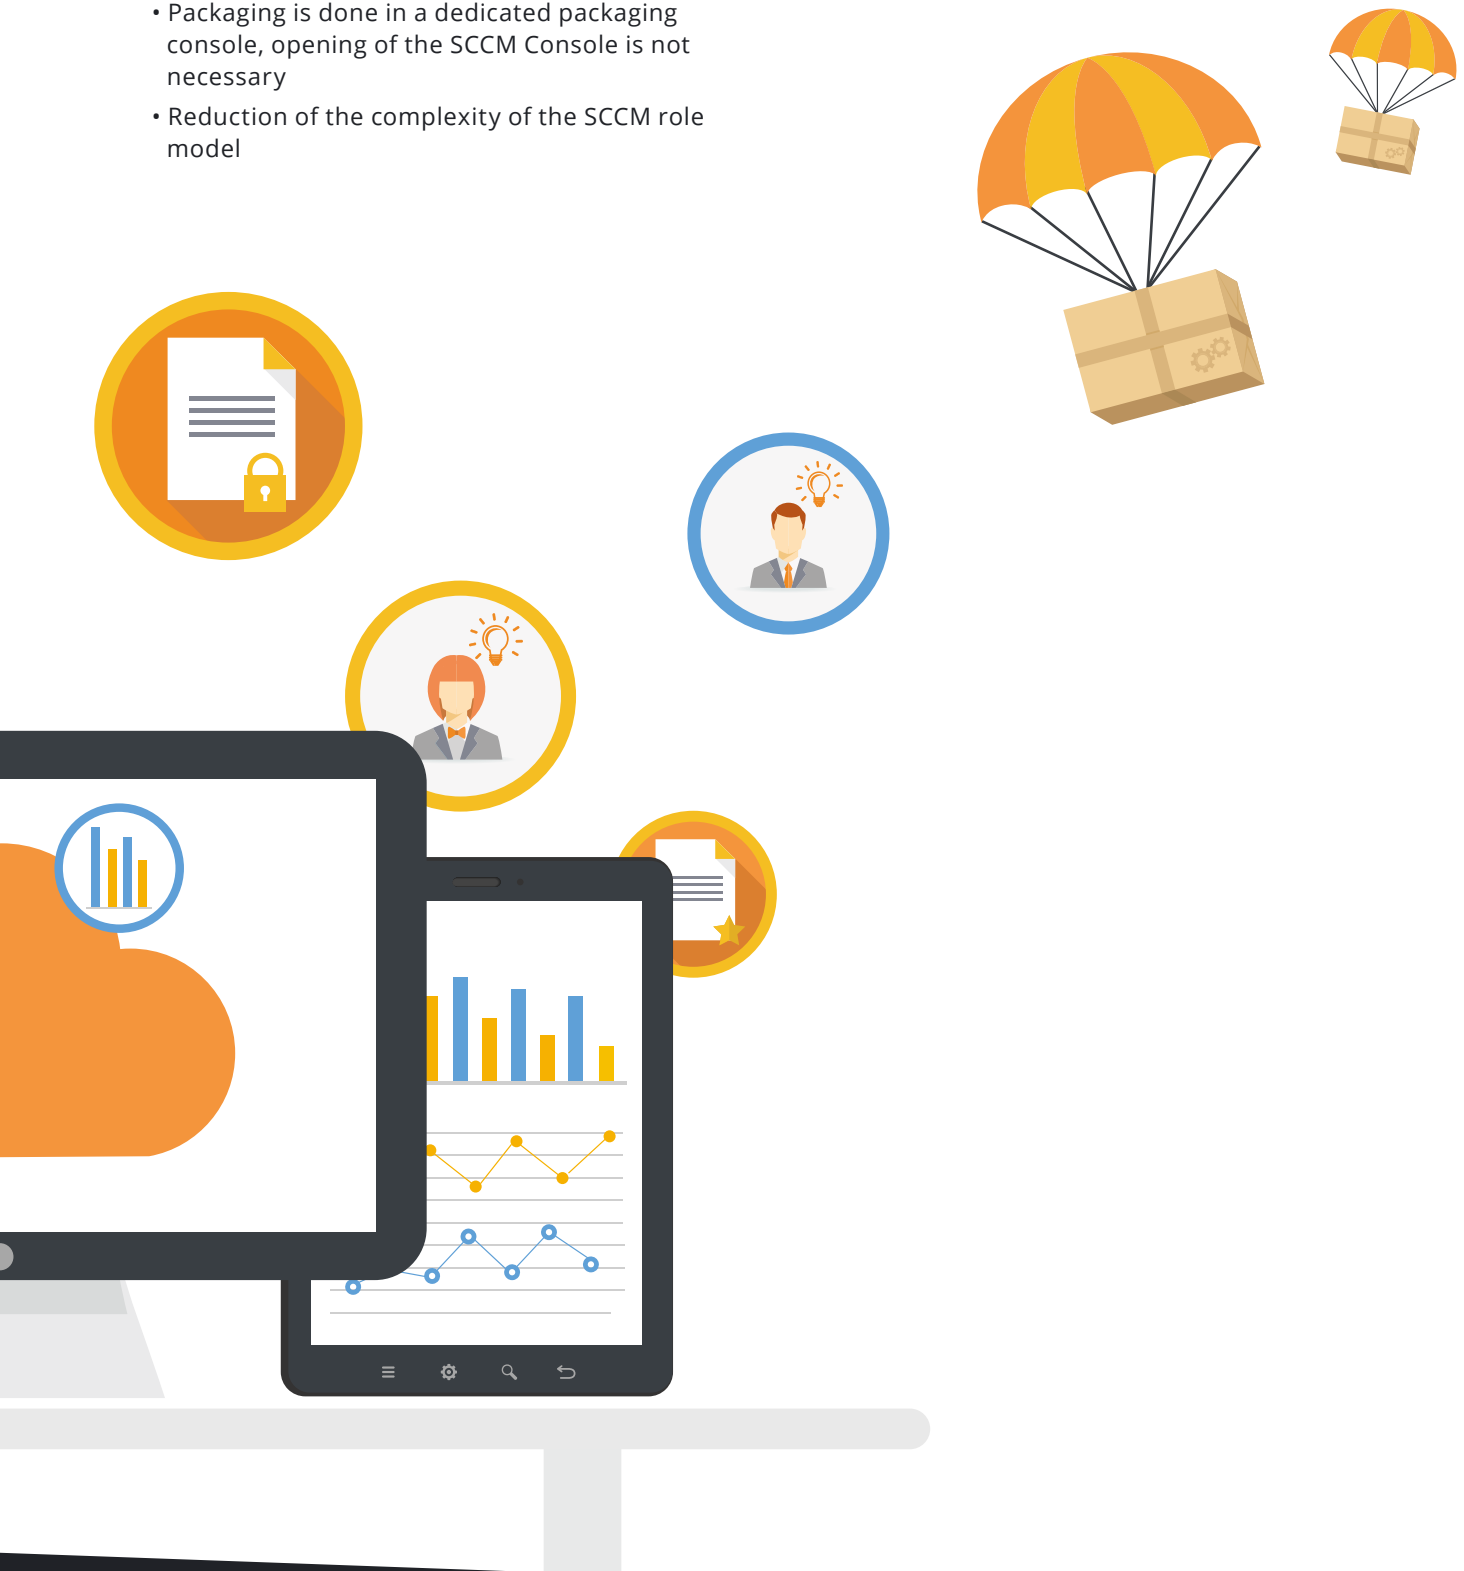

3 Single point of configuration

- Direct injection of a downloaded package into the SCCM environment, distribution within just a few minutes
- Direct Management of the most important SCCM settings through the Package Manager interface: this allows the user to decide whether to create an SCCM application or an SCCM package
- Packaging is done in a dedicated packaging console, opening of the SCCM Console is not necessary
- Reduction of the complexity of the SCCM role model

4 Use for free

- Access to a small set of packages in the Matrix42 Marketplace is integrated without any extra costs
- All features to manage SCCM packages and applications can be used for free
